SIX-MONTH REPORT OF QWEST CORPORATION

I.   INTRODUCTION

On December 19, 1991, the Federal Communications Commission

("Commission") released a Memorandum Opinion and Order in the above-captioned

proceeding,[1] wherein it established certain ongoing reporting requirements in order

"to enable the Commission to monitor the BOCs' [Bell Operating Companies]

progress in providing ONA [Open Network Architecture] capabilities to ESPs

[Enhanced Service Providers]."[2] In compliance with that Order,[3] Qwest Corporation[4]

files the following with the Commission:

[3] See id. at 7663 ¶ 35 n.56, 7664 ¶ 38 n.63. See also id. at 7677-79, Appendix B, summarizing the filing requirements.

[4] On June 30, 2000, U S WEST, Inc., the parent and sole shareholder of U S WEST Communications, Inc. ("U S WEST"), merged with and into Qwest Communications International Inc. Further, on July 6, 2000, U S WEST Communications, Inc. was renamed Qwest Corporation ("Qwest").

At the conclusion of the Commission's Order, it provided a summary of future

filing requirements for the BOCs.[8] Qwest has chosen herein to utilize the

[5] On July 7, 2000 Qwest filed an Adoption Notice (revised on July 11, 2000) informing the Commission of Qwest's intent to reissue the U S WEST FCC tariffs in the name of Qwest within 35 days. On July 25, 2000 and August 8, 2000 Qwest reissued its FCC tariffs. The name references associated with the tariff filings, however, were not accomplished prior to the "close" of the data associated with the current report. Therefore, the User Guide is replete with references to U S WEST and does not mention Qwest. All references to U S WEST should be considered to mean Qwest.

[6] Attachment 3 is the "Service Descriptions Section" of the ONA Services User Guide; Attachment 4 is the "Tariff Reference Section" of the same document.

[7] These diskettes are being provided directly to the Policy Division of the Commission and include the following material from the ONA Services User Guide: Service Descriptions Section (two diskettes), Tariff Reference Section (one diskette), and Wire Center Deployment (two diskettes).

[8] In response to the Commission's Further Notice of Proposed Rulemaking seeking comments on the elimination of some or all ONA reporting requirements, U S WEST proposed that the semi-annual reports and the Annual Report be consolidated into a new Annual ONA Report. The new Annual ONA Report would encompass all of the existing requirements of the semi-annual reports and streamlined information contained in its current ONA Annual Report. In the alternative, U S WEST proposed that new ONA services be posted on a web site

Commission's basic "summary" as the outline by which we will make our responses. This methodology was chosen for the Commission's ease of reference in assessing Qwest's compliance.

Requirement:

1.   "Work through the IILC [Information Industry Liaison Committee] to develop one consolidated nationwide matrix of BOC ONA services and state and federal ONA tariffs, and file the matrix with the Commission."[9]

Response:

Qwest worked through the NIIF and with the other BOCs to develop a combined nationwide tariff reference matrix.[10] This document is included herewith as Attachment 1.

The nationwide matrix includes the generic name of the ONA service, which operating company offers the service in a particular jurisdiction, and whether the service is a Basic Service Element ("BSE"), Basic Serving Arrangement ("BSA"), or Complementary Network Service ("CNS"). The matrix also provides the name of the ONA service, as it is identified in a particular state or federal tariff, and a specific tariff reference.

which could eliminate the need for a paper report. U S WEST Comments filed Mar. 27, 1998. In the Matter of Computer III Further Remand Proceedings: Bell Operating Company Provision of Enhanced Services, 1998 Biennial Regulatory Review -- Review of Computer III and ONA Safeguards and Requirements, CC Docket Nos. 95-20 and 98-10, Further Notice of Proposed Rulemaking, FCC 98-8, rel. Jan. 30, 1998 ¶¶ 101-2.

[9] Monitoring Order, 6 FCC Rcd. at 7678, Appendix B.

[10] The nationwide matrix was assembled by National Telecommunications Alliance, Inc. (NTA) at the request of the BOCs.

Each BOC has reviewed the matrix to ensure the accuracy of the information contained therein pertaining to itself. The matrix identifies Qwest's tariffs effective as of July 31, 2000, the effective date of the Tariff Reference Section of the <u>ONA Services User Guide</u>.[11]

<u>Requirement</u>:

2.   "File computer diskettes and print outs of data regarding state and federal tariffs."[12]

<u>Response</u>:

This information -- in printout form -- is contained in the Tariff Reference Section of the <u>ONA Services User Guide</u>, which is included herein as Attachment 4. The information as contained on computer diskettes is being provided to the Policy Division of the Commission (<u>see</u> Response to Requirement 3, below), and is not included herein as an attachment.

<u>Requirement</u>:

3.   "File a printed copy and computer diskette of the <u>ONA Services User Guide</u>."[13]

<u>Response</u>:

A printed copy of the July 31, 2000, <u>ONA Services User Guide</u> accompanies this filing as Attachment 3 (the "Services Description Section") and Attachment 4

---

[11] <u>See</u> note 6, <u>supra</u>. The Tariff Reference Section of the <u>ONA Services User Guide</u> is discussed more fully below and is provided as Attachment 4.

(the "Tariff Reference Section").[14] The ONA Services User Guide as it appears on diskette (which includes wire center deployment information) is being provided to the Policy Division of the Commission coincident with this filing, as requested, and is not herein included as an attachment.

Requirement:

4. "File updated information contained in Appendix A of the January 31, 1991 Cross Reference Guide on ESP requests received and how they were addressed by the BOCs with details and matrices."[15]

Requirement:

5. "File updated information contained in Appendix B of the January 31, 1991 Cross Reference Guide on BOC responses to the requests and matrix."[16]

Response:

Appendices A & B of the Cross Reference Guide, updated as of September 30, 2000, are identified as BOC ONA Special Report #5. A copy of this Special Report is provided as Attachment 2.

Requirement:

6. "File updated information contained in Appendix C of the January 31, 1991 Cross Reference Guide on services offered by the BOC in response to the requests."[17]

Response:

---

[14] See note 6, supra. The Tariff Reference Section of the ONA Services User Guide provides the information required by the Commission's Monitoring Order. See Monitoring Order, 6 FCC Rcd. at 7664 n.63.

[15] Id. at 7678, Appendix B.

[16] Id.

[17] Id. at 7679, Appendix B.

This updated information is contained in the <u>ONA Services User Guide</u>,

"Service Descriptions Section," attached herein as Attachment 3.

III. <u>CONCLUSION</u>

As set forth herein, Qwest makes the appropriate filings as required by the

Commission's <u>Monitoring Order</u>.

ONA Special Report #5 Update

Appendix A & Appendix B

SEPTEMBER 30, 2000

1. APPENDIX A: RELATIONSHIP BETWEEN ESP REQUESTS FOR NETWORK CAPABILITIES AND ONA SERVICES..4

1. Appendix A: Relationship Between ESP Requests for Network Capabilities and ONA Services

The FCC, in its December 22, 1989 Memorandum, Opinion and Order, recognized the 118 requests for network capabilities included in BOC Special Report Number 1 as the nationally received requests. Not all of these requests are for particular services. For example, some are for attributes that a service should contain; some are for a service to operate in a particular manner. As a result, some ONA services offered meet a number of network capability requests, while some requests are met by a number of ONA services. There is not a one-for-one relationship between network capability requests and ONA services. In addition, some ONA services may be offered by some regional companies as both a BSE and a CNS, depending on the line that the service is applied to.

The following appendix shows the relationship between each of the requested network capabilities, other requested network capabilities and ONA services. The ONA services listed use the Uniform Names developed by the regional companies and contributed to the IILC Issue 006 ONA Services User Guide Task Group.

Following this Appendix A is a summary table (Appendix B) arranged to be similar to Appendix E of the FCC's December 22, 1988 Memorandum Opinion and Order.
